IMPECCABLY STYLED BATHROOM ESSENTIALS

VADO's cisterns and frames have been designed to save water, maximise space and offer installation flexibility for a variety of bathroom layouts.

Our pneumatic flush plates are available with round or rectangular buttons in a variety of colours. Choose from high-shine chrome, our premium Individual brushed finishes, or a perfect matt finish from the Cameo collection to create a coordinated bathroom design.

FLUSH SYSTEMS

A stylish alternative to traditional toilet cisterns, designed for ease of fit, ease of use and provides a minimalistic finish in all bathroom design schemes.

The short cistern is a versatile choice for the modern bathroom, as the flush plate can be mounted to the front or the top of the frame.

Wall mounted plates on all frames.

FRAMES

- Compatible with a wide variety of toilets, due to a high weight bearing frame of 400kg.
- Versatile frame design, allowing for height adjustment up to 250mm.
- Designed to accommodate compact, wall hung pans to maximise space and create the illusion of a larger bathroom (WG-095-F/C + WG-095S-F/C).
- A compact holding frame is included with the short cistern for an easy fix to stud walls; ideal for back-to-wall installations (WG-095S-C).
- All **VADO** cisterns are designed to comply and meet with EN 14055:2018.
- Engineered with industry-leading, WRAS approved componentry.

TOILETS

- Rimless design for hygiene; easy to clean, reduces limescale build up with no hidden areas for germ and bacteria growth.
- Choose between a traditional D-shape toilet or opt for a modern soft-square aesthetic to match your basins and brassware.
- Combine our wall hung WC option with our frames to create a trendy, floating toilet (CAM-WC-WH-RO + CAM-WC-WH-SQ).
- Back-to-wall, floor mounted toilets for easy installation and perfect for use with our cisterns (CAM-WC-BTW-RO + CAM-WC-BTW-SQ).

Find out more here www.vado.com/flush-systems.

VADO's robust, steel frame has a corrosion resistant, durable coating for peace of mind.

Concealed frame installation allows for flexibility in small bathrooms.

Image to show standard concealed frame and cistern, this would not be visible once installed.

FRAMES, CISTERNS AND TOILETS

VADO's frames are suitable for most toilet types, from wall hung to back-to-wall installations. Simply select the frame you need and then choose your toilet style.
