Bathrooms **AW25**

About hib.

We are a family-run,
British brand bringing
bathroom dreams to life.

In 1990, our founder Warren Ginsberg MBE began selling mirrors and cabinets out of his home in London – and whilst our product range (and team) has outgrown his kitchen table, our philosophy remains the same: a commitment to designing for real lives and real homes.

The company has pioneered numerous industry-first innovations, including steam-free mirrors, colour-changing technology and Bluetooth-integrated cabinets, all developed with a commitment to combining cutting-edge technology with timeless design.

Through continued innovation, retailer partnerships, and a passion for exceptional design, hib. is committed to shaping the future of bathroom experiences, one beautifully-crafted space at a time.

We are here to help you every step of the way

hib. recommends that products are installed by fitters who are able to meet the level of competence required in order to comply with relevant regulations.

The images presented in this brochure are CGI so may not reflect colours and textures exactly. We recommend ordering a free furniture colour swatch from our website: hib.co.uk.

All sizes and measurements are approximate, but we do try and make sure they are as accurate as possible and within acceptable tolerances. In the interest of continuous product development, hib. reserves the right to alter specifications as necessary.

Our products are constructed from a range of materials that are variable in nature. Paint and printed finishes may be subject to batch variation.

In the event of any issues, we stock a comprehensive range of spares and will endeavour to use this service in the first instance.

hib. Novum bathroom furniture is intended for domestic use only.

Ensure adequate ventilation is maintained in the bathroom. Timber products will be adversely affected by excessive moisture. hib. Novum bathroom furniture is not suitable for use in saunas, steam rooms, shower cubicles or wet rooms.

New to hib.

AW25

Step into Autumn Winter 2025 with hib's latest ranges, where innovation meets elegance. From beautiful new mirror ranges to sleek, concealed showers, explore the next chapter in bathroom style.

Verana / Verana Luxe

New Mirror Range - Page 41/28

Introducing Verana, a mirror range with elegant, curved corners, sensor-activated colour temperature-changing lighting and an ambient glow. The Verana Luxe benefits from a handy integrated shaver socket, for added practicality.

Odelle Coloris Recessed

New Cabinet Range - Page 55

All the character and elegance of the Odelle Coloris LED cabinet but recessed to rest comfortably within your bathroom wall. Created with a nano-toughened, anti-oxidation mirror surface, the Odelle Coloris Recessed is engineered for superior durability, and resilience.

Indra

New Mixer Tap Range - Page 164

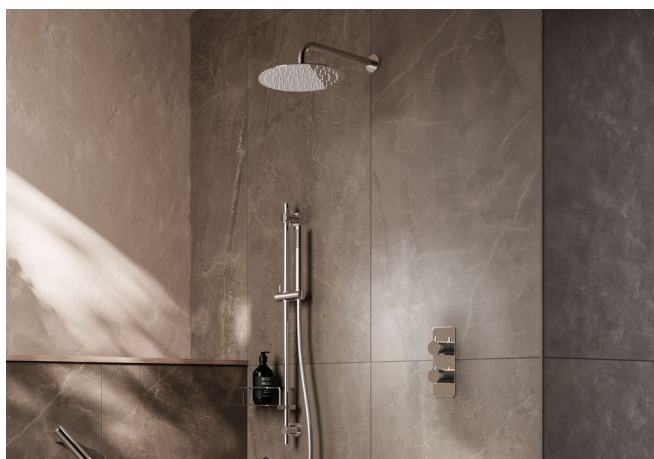

The new Indra brassware range blends modern, minimalist styling with elegant curves and refined detail. Its sleek silhouette and subtle sophistication bring a calm, confident presence to contemporary bathroom spaces.

Atlas Luxe

New Mixer Tap Range - Page 166

Atlas Luxe, is a new, luxurious evolution of our best-selling range, combining ergonomic design with elegant, knurled detailing and five stunning finishes. The range also features a new floorstanding option for heightened luxury.

Rivex Concealed Showers

New Shower Range - Page 176

Discover Rivex, the sleek, modern shower solution that hides pipework for a clean, clutter-free bathroom. Easy to install and fully serviceable, it offers powerful water flow and is available in a range of finishes.

Vanta

New Shower Range - Page 175

Designed for functionality and style, the Vanta range features knurled detailing at key touchpoints, Cold Touch Thermostatic Valve technology, and five finishes, delivering a premium shower solution.

Range Extensions

Vanquish Recessed Cabinet

- New 140 width size available.
- New Trim Sets for the new 140 width.

Arcane Mirror

- New Arcane Pill 40 width size available.
- New Arcane Curve 50 x 90 size available.

Atlas Mixer Tap

- New Floorstanding Bath Shower Mixer.

Hinge Plates

- New Hinge Plate finishes in Gunmetal and Brushed Bronze.

Flush Buttons

- New Flush Buttons finishes in Gunmetal and Brushed Bronze.

Heated Pads

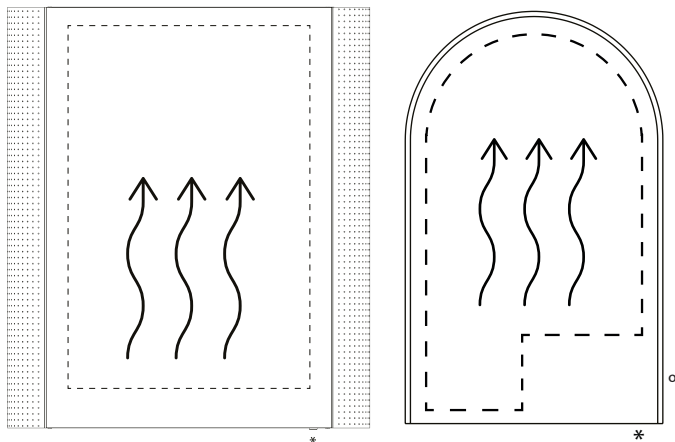

Feature Highlight

Heated pads have become a highly desirable feature for bathroom mirrors and cabinets. Placed on the back of mirror, they are designed to prevent condensation by gently warming the mirror surface, stopping steam from fogging it up after showers or baths. hib. has continually worked to maximise the size and coverage of these heated pads, ensuring a larger portion of the mirror stays clearer.

By expanding the heated area, more of the mirror is protected from condensation, providing an unclouded reflection. This improvement means users no longer have to wipe away condensation or wait for mirrors to clear naturally, making daily routines easier and more convenient, while maintaining the sleek, modern look hib. mirrors and cabinets are known for.

Heated Pad Coverage Examples

Bastille Cabinet 60

Alba 60

Where possible we have made maximised the size of the heated pad, ensuring the best performance possible for the user.

Sometimes, due to the locations of drivers and electrical components, we are not able to cover the whole surface of the mirror.

This should not interfere with the user's experience, as the heated pad effectively warms the key areas most frequently used.

Mirror & Cabinet Features

Feature Highlight

Technology is making mirrors and cabinets more useful than ever, adding ease and efficiency to daily routines. With features that are hidden inside stunning designs, everyone can enjoy style and useful solutions that make them feel fabulous and their lives that little bit easier.

Colour Temperature Changing LED Illumination

Mirror & Cabinet Feature

Warm White - 2700K

A soft, mellow glow that instantly makes your space feel cosy and inviting. This setting is ideal for creating a calm atmosphere, whether you're enjoying a long bath or easing into your evening routine before bed.

Natural White - 4000K

Lighting that closely matches natural daylight, revealing colours and details with accuracy. Great for makeup, grooming or any task where precision matters, daylight mode ensures you see things exactly as they are.

Cool White - 6000K

Clean, crisp lighting that helps you feel awake and ready for the day. Cool white is perfect for morning routines or times when you need extra clarity and focus, giving your space a fresh, energising feel.

Ambient Lighting

Mirror & Cabinet Feature

Ambient lighting fills the bathroom with a gentle, even glow that instantly adds a sense of luxury. By reducing harsh shadows and working alongside task and accent lighting, it creates a layered, well-balanced look.

This subtle illumination enhances the overall atmosphere, making the space feel more inviting, stylish, and comfortable for everyday use.

Touch Free Operation

Mirror & Cabinet Feature

Touch free operated LED mirrors let you switch the light on or off without touching the surface, preventing smudges, improving hygiene and reducing cleaning, keeping your mirror clear, low-maintenance and ready to use anytime.

Phone Features

Cabinet Feature

Built-in Bluetooth, integrated speakers and wireless charging allows users to enjoy music effortlessly while charging their phones, making the bathroom a convenient, practical and enjoyable space.

Toothbrush Charger

Cabinet Feature

Wireless toothbrush charging allows you to hide electric toothbrushes neatly away, keeping your space tidy and stylish. It is simple to use and works with most major brands, effortlessly integrating into your routine.

Charging Sockets

Mirror & Cabinet Feature

Keep the counter clutter-free and organised with built-in USB, USB-C and 2-pin charging sockets. Effortlessly charge your device, razors and electric toothbrushes while getting ready, making your routines simple and convenient.

Novum Furniture Features

Feature Highlights

Novum furniture by hib. blends clean design with effortless style. Each collection delivers the perfect mix of functionality and elegance. Available in Wall Hung and Floor Standing options, from contemporary to modern chic, Novum makes achieving a beautifully designed bathroom simple and inspiring.

Sized to Suit

Furniture Feature

Novum furniture offers compact, full projection and cloakroom units, making it ideal for bathrooms of every size. Designed for seamless style across multiple spaces, each range combines elegance with practicality.

Choose Your Basin

Basin Feature

Novum furniture is designed to work seamlessly with a variety of basin options, whether you love the sculptural elegance of a vessel basin with the sleek flow of a countertop, or the classic appeal of an integrated washbasin.

Soft-Close

Furniture Feature

Each range is designed with soft-close hinges, ensuring effortless, whisper-quiet operation. From practical doors to elegant drawers, the soft-close feature offers the perfect blend of practicality and sophistication.

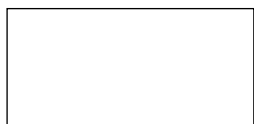

Coordinated Living

Brassware Feature

Effortlessly pair Novum furniture ranges with a wide selection of handles, each crafted to complement our accessories and brassware ranges. Create a seamless, coordinated look or mix and match for a playful, personal style.

Demista Pads

An effective solution to an everyday problem. A Demista Pad can be easily fitted behind any mirror that doesn't already have a heated pad to deliver fast, efficient demisting in seconds. The technology is available as an optional extra on mirrors where indicated.

Other sizes available on request for contract orders. Demista pads should be placed on the back of mirror's surface away from any electrical components that may be effected by the heat generated by the pad.

Demista Pads	Art No.	Dimensions	RRP
D1	37010	30 x 25cm	£72
D2	37020	30 x 57cm	£97
D3	37030	50 x 53cm	£126
D4	37040	50 x 105cm	£201

Cabinets

Elevate your daily bathing routines and rituals with our innovative collection of sophisticated cabinets.

When installing a Back to Wall Unit in a furniture run, allow for plinth returns when selecting a suitable plinth length (see diagram to the right).

ib. recommends installing our end panels, infill panels and plinths 2mm from the floor.

Cyclone & Turbo

High Powered Inline Ceiling Fans

- Ceiling Mounted High Powered Ventilation
- Complete kit includes fascia, inline fan, 3 metre flexible ø10cm ducting, external fixed grille and steel hose clamps
- Cyclone - Powerful 210m³/hr extraction rate with low noise level of only 32dB
- Turbo - 137m³/hr extraction rate with low noise level of only 37dB
- Optional warm or cool white LED illumination*
- Adjustable run on timer.
Select from 2 up to 30 minutes of extraction after the main light is turned off
- 100mm ducting
- IPX4 rated

*Replacement lamps available from hib.

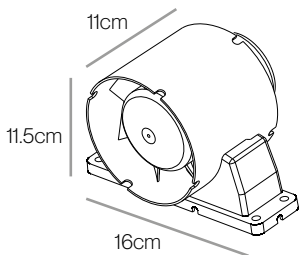

Cyclone motor dimensions

High powered extraction

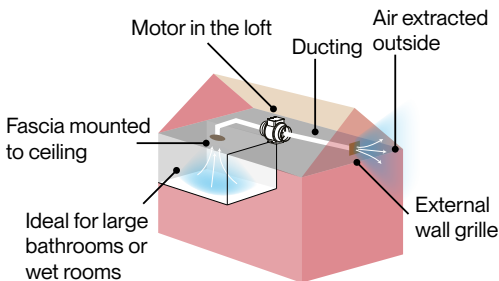

Cyclone's high powered air extraction rate is ideal for large bathrooms and wet rooms, where large amounts of condensation needs to be removed.

Turbo motor dimensions

High extraction

Turbo's extraction rate is ideal for medium to large bathrooms, where lots of condensation needs to be removed from the room.

Elevate your bathroom lighting scheme by installing a discreet underlight with your furniture. Featuring a solid strip of COB LED with an optional motion sensor that activates when movement is detected, our underlights can offer a touch of detail and extravagance. Simply cut to length and attach to your bathroom furniture for a modern, stylish look.

PIR motion sensors to use with LED underlighting are supplied as standard and can be used to operate the LED lighting. Alternatively, the lighting can be hardwired with a separate switch.

Lighting Regulations

All installations must comply with guidelines which are based on a zonal concept. The diagram below illustrates this concept and must be followed to ensure the safe installation of electrical appliances in the bathroom. These regulations apply to domestic installations only. Installations must be made in accordance with the current IEE wiring regulations and relevant building regulations. h.b. recommends that all electrical bathroom products should only be fitted by a suitably qualified, Part P registered electrician.

Zone 1 refers to the area above the shower up to a height of 2.25 metres and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

Zone 2 covers an area 0.6 metres wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

Outside Zone has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom's light is rated IP65, then the 6 means its 'Protected against Dust' and the 5 means its 'Protected against Water Jets' from a shower, tap or cleaning processes from any direction.

First numeral - protection against ingress of foreign bodies, E.G. Tools, dust, fingers, etc.

No protection	1 Protected against solid objects with a diameter of 50mm and over (e.g. Accidental insertion of hands).	2 Protected against solid objects over 12mm (e.g. jointed fingers).	3 Protected against solid objects over 2.5mm (tools).	4 Protected against solid objects over 1mm (small wires).	5 Protected against dust - limited ingress permitted (no harmful deposit).	6 Totally protected against dust.
---------------	---	--	--	--	---	--------------------------------------

Second numeral - protection against ingress of liquids.

No protection	1 Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect.	2 Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.	3 Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.	4 Protection against splashing. Liquid splashed from any direction shall have no harmful effect.	5 Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.	6 Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.	7 Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.	8 Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.
